

## Sample Site Plan

A site plan drawing is required when applying for a residential new home permit, any additions, and for any detached accessory building or pools.

**The following is required to be listed on the site plan:**

- Property Lines
- Setback distances from all proposed structures to any existing structures and to FRONT, REAR, and SIDE property lines (actual distances). Setbacks may vary based on zoning district of property.
- Dimensions of structures
- Driveway location
- Street names
- Any easements or drainage areas located on property.
